NIGHT WORKS TO CONTINUE IN NEW YEAR ON TOWER ROAD

To minimise inconvenience to tenants and road users, night works will continue into 2024 as part of our major upgrade of the Tower Road/Link Road thoroughfare.

Current night works on the southern section of Tower Road, between Murray Jones Drive and Rabaul Road, will stop for the Christmas break on 22 December.

Nightworks will restart on Sunday 14 January and continue through to end of April, reducing the need for traffic management controls during school and business hours.

Current road restrictions will continue during night works, with the southern section of Tower Road open to airport precinct customers and emergency services only from 7pm to 6am.

These works are part of Stages 5-10 of the Tower Road/Link Road upgrade, to improve safety, accessibility and amenity for drivers and pedestrians.

THE WORKS

Stages 5-10 will include:

- Reconstruction of the roadway
- Carpark installation
- Installation of electrical conduits
- Installation of kerbs and a shared footpath and cycleway

Traffic management measures will be in place to ensure safety for workers and road users.

ROAD ACCESS DURING NIGHT WORKS

To ensure safety, the southern section of Tower Road will be open to airport precinct customers and emergency services only during night works, from 7pm to 6am.

- Emergency services will retain full access to Tower Road at all times.
- Traffic barriers will restrict access to other road users during the night works. The southern section of Tower Road will reopen to all road users each day at approximately 6am.
- The northern section of Tower/Link Road, north of the Rabaul Road intersection, are unaffected by these closures.

While we are working hard to minimise any inconvenience, please allow for extra travel time and use alternative routes where possible.

We thank you for your patience and cooperation in helping us create a safer, more accessible and enjoyable airport precinct for everyone.

Please contact us via the details below or contact your AMG Property Team representative if you have any questions or concerns.
