AIRSIDE PAVEMENTS UPGRADE

REOPENING OF TAXIWAY A AND NORTHERN RUNWAY OVER HOLIDAY PERIOD

The major upgrade of airside pavements at Bankstown Airport is progressing well.

We are pleased to say that such progress will enable us to temporarily reopen Taxiway Alpha and the Northern Runway (11L/29R) between 23 December 2023 and 10 January 2024, to assist airport operators over the holiday break.

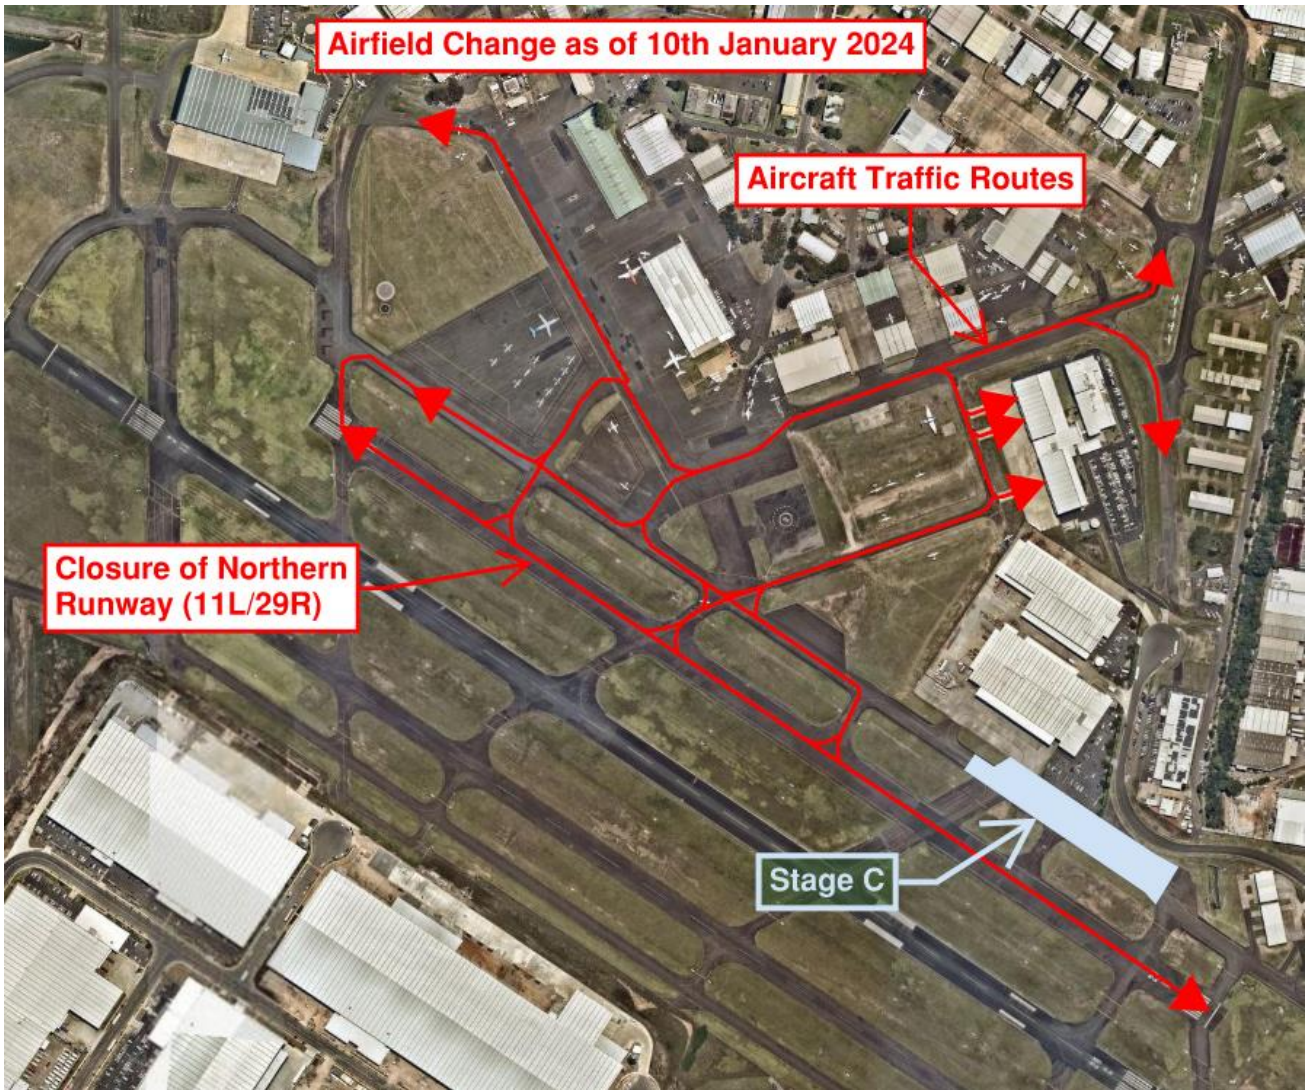

Stage C Construction to Commence: 10th January 2024

Stage C, the final major stage of the upgrade, is scheduled to start on 10 January 2024 with an estimated completion of March 2024.

During these works:

- Taxiway Alpha will be partially closed between Alpha 6 and Alpha 7
- The Northern Runway (11L/29R) will be closed

Alternative traffic routes will be provided during this time, as shown below. Runways Centre (11C/29C) and South (11R/29L) will remain open.

We appreciate your cooperation and patience while we complete this important and necessary work to improve the safety and conditions of Bankstown Airport for our General Aviation customers.
