Tower Road Upgrade: Connecting businesses, customers and all users within the airport more efficiently

The planned Tower Road upgrade is part of our vision to create the ultimate gateway to Southwest Sydney.

The improvements will ensure better connectivity, an improved road alignment, enhanced pedestrian safety (newly constructed footpaths and lighting), new parking bays, and improved drainage systems that will improve safety and reliability for all Tower Road users.

The project will be completed in stages and will extend from Henry Lawson Drive to Link Road. Works are scheduled to commence July 2023.

Community consultation sessions will be held at our Passenger Terminal to provide further information on Tower Road.

Details on these sessions can be found on our website.
