Camden Airport Car Park and Stormwater Upgrades Taxiway Charlie Closure

Airside stormwater upgrade works, which commenced this month, are proceeding well despite the impacts of recent poor weather.

Reopening of Taxiway Delta and apron on 28 February

We are pleased to advise that Taxiway Delta will reopen in full on Wednesday 28 February, earlier than expected. The apron to Taxiway Delta from hangars 740, 756, 765, 723 and 722 will also reopen on this date.

Partial closure of Taxiway Charlie from 28 February

The early reopening of Taxiway Delta has enabled us to bring forward the commencement of works on Taxiway Charlie.

Taxiway Charlie will now be partially closed from Wednesday 28 February to Monday 25 March.

Alternate aircraft access routes are available during these closures to minimise disruptions, as shown below.

We appreciate your cooperation and patience while we complete this important and necessary work to improve the safety and conditions of Camden Airport.

For any queries, please contact your AMG Property Manager or Senior Communications & Stakeholder Engagement Manager Peter Munro (peter.munro@aeria.co).
