

Western Sydney International (Nancy-Bird Walton) Airport

Airservices Australia Update

CACG 30 June 2025

Detailed design community engagement

- our engagement is in accordance with our Community Engagement Standard
- through our engagement we want to raise awareness of the new WSI flight paths and how the airspace will be operated
- communities will have the opportunity to provide feedback on Noise Abatement Procedures as well as noise monitoring program

Community engagement activities delivered in line with the Standard should be proportionate to the impacts of the proposal, the number of alternative options and the range of stakeholders affected.

The Standard organises types of change proposals into three levels, based on their size and impact		
Level 1 New flight paths/airspace to support airport expansion	Level 2 New or changed flight paths in existing airspace	Level 3 Operational changes in existing airspace
<p>The largest, most complex changes involving a suite of new flight paths and changes airspace operation, resulting in:</p> <ul style="list-style-type: none"> • a broad range of potentially significant impacts over a wide area • many alternative flight path design options available • a very large and varied mix of affected stakeholders 	<p>Large-scale flight path and/or airspace changes to introduce new features to an existing airspace system, resulting in:</p> <ul style="list-style-type: none"> • noticeable or significant impacts within specific geographical areas • a shortlist of alternative flight path options available • a large but distinct sub-set of affected stakeholders 	<p>Smaller, more specific changes to amend aspects of an existing airspace system or operational procedures, resulting in:</p> <ul style="list-style-type: none"> • a narrower set of specific impacts • few (if any) alternative options other than no change • a limited number of affected stakeholders in specific areas

WSI Engagement Timeline*

	May 25	June 25	July 25	Aug 25	Sep 25	Oct 25	Nov 25	Dec 25
Engagement Plan	 Flight path approval by Minister		 ACP submission			 CER submission to CASA		 ACP Approved
	 Industry Engagement		 Detailed Design Community Engagement (30 June – 21 Sep)			 Assessment of EOIs for temporary noise monitoring sites		
	 Landowner engagement for permanent noise monitoring sites							
Holiday Periods			 Winter: 7 July-18 July			 Spring: 29 September - 10 October		

	Jan 26	Feb 26	Mar 26	Apr 26	May 26	Jun 26	July 26	Aug 26	Oct 26	Nov 26	Dec 26
Engagement Plan			 Noise Monitoring System implemented for WSI			<div>Implementation Community Engagement 1 May– 5 June</div>  June 2026 AIRAC Changes Published					
Holiday Periods	<div>Summer: 22 December – 26 January</div>			<div>Easter 2 – 19 April</div>							

Engagement activities - notifications and advertisement

Letterbox drop across Greater Sydney and Blue Mountains

all residential and business properties

Newspaper advertising

Sydney Morning Herald, Daily Telegraph, local newspapers (print and digital)

“Flyer”-squad at train stations

Flyer hand-out during peak time

Letters to stakeholder

Notification to Federal and Local MPs with offer for briefing

Social media and digital advertising

Geotargeted on Facebook, Instagram and popular websites, i.e. NRL.com.au

Radio advertising

Gold FM, 2GB, Breakfast and Drive program

Direct email

Engage subscriber list, NCIS database

Engage page

News section updates

Engagement Activities – community facing*

23x Drop-in Community Engagement session (in person)

10x Pop up Community Engagement session (in person)

8x Train station engagement (in person)

2x Webinars (online)

Engage Aircservices

Our Engage Aircservices project page will be the central source for project information.

engage.airservicesaustralia.com/WSI

We recommend subscribing to the project mailing list to receive updates and information on community engagement sessions.

Aircservices Australia is supporting Western Sydney International (Nancy-Bird Walton) Airport (WSI) in their quest to be a world-class smart airport, built to service 10 million passengers per year from day one when it opens in 2026.
